AMENDMENT

ASSISTANT COMMISSIONER FOR PATENTS
WASHINGTON, D.C. 20231

SIR:

In response to the Office Action dated January 2, 2003, please amend the above-identified application as follows:

IN THE SPECIFICATION

Please amend the specification to read as follows:¹

Page 3, lines 4-20, please amend the paragraph to read as follows:

In order to achieve the above object, according to a first aspect of the present invention, a rotational electric machine comprises: a stator having an annular magnetic substance, main poles provided so as to extend radially outward from the magnetic substance, windings wound on the main poles respectively, and inductors each constituted by a plurality of magnetic teeth formed at a forward end of corresponding one of the main poles; and an
